Our next meeting, Tues, **March 14th, at Dorothy Hart Center.**

We will discuss image processing in general and then specifically in Lightroom. Andy Sentipal will provide an overview of things to look for in your processing method. We will then watch a brief YouTube presentation on an introduction to Lightroom.

Further discussion will take place as we watch it and learn the basics of post processing. A great opportunity to discuss post processing whether you are brand new to it or a longtime user.
